

Dear Parent:

Our school has some great news! We've just joined the Cartridge World Recycling Program! This program provides a convenient location for collecting inkjet and laser cartridges while it raises funds for our school.

The Cartridge World School Recycling Program is intended not only for school use, but also for use by the local community and businesses. Our school will receive money for the cartridges we collect from parents, community members and businesses.

Here's how the program will work: teachers, students, parents, friends, businesses and community members drop off their empty inkjet and laser cartridges at the school. Periodically, a Cartridge World representative will pick up the empty cartridges collected at our school. Those cartridges are counted and their value is determined. Cartridge World will then deliver a check to our school. The more cartridges we collect the more money we receive for our school.

A Cartridge Collection Bin, clearly marked and accessible during normal school hours, will be placed at our location. You can drop off your cartridges whenever it's convenient for you or you may choose to collect them at your office and arrange to have them delivered to the school.

I hope you will start bringing your empty laser and inkjet cartridges to our school immediately to help us raise funds. In addition, please urge your neighbors, employer, church or civic groups to participate in the Cartridge World School Recycling Program.

Not only is this an easy way to raise school funds, it also teaches our students valuable lessons about the variety of materials that can be recycled as well as help them develop life long patterns of recycling.

Typically the most popular laser and inkjet cartridges that provide us with the most value are HP, Canon, Sharp and Lexmark.

Start saving your cartridges today. We look forward to your enthusiastic participation!

Thank you.
